September 26, 2019  
Subject: Demolition  
State WIN: 024478.00  
Location: **Dixfield**  
**Amendment No. 1**

Dear Sir/Ms.:

The following questions have been received:

**Question:** Bid documents refers to 3 walls and basement slab to remain. No mention of filling in basement. Does the basement hole receive any fill?

**Response:** Contractors are required to fill and repair any disturbed areas around the outside perimeter and interior is to remain open, no fill, the foundation is to be reused.

**Question:** If the basement slab is left open, no filling, will MaineDOT be securing the site for safety purposes when the demolition is complete, and the contractor leaves the site?

**Response:** MaineDOT will secure the area after the project is complete.

**Question:** Do you know the weight of the 130 LF pole that needs to be removed?

**Response:** the weight of the pole is unknown to the Department.

**Question:** Bid/Contract documents mention asbestos survey, but makes no mention of a rodent survey to deem the building prior to demolition rodent free. Is a rodent survey required?

**Response:** No, a rodent survey is not required.

Consider these changes and information prior to submitting your bid on **October 2, 2019**.

Sincerely,

George M. A. Macdougall P.E.  
Contracts & Specifications Engineer
